

## Activity 2

1. Go to Setup ? Click on Object Manager ? Search for the object (Item) ? From drop down click on Edit.
2. Click on Page layout ? Click on New.
3. Give Page layout Name as “Page Layout for Silver” and click on Save.
4. Arrange the field as shown in the Information Section ,remove fields which are related to Gold and click Ok.

The screenshot shows the SAP Object Manager interface for the 'Item' object. The left sidebar contains a navigation menu with options like Details, Fields & Relationships, Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, Related Lookup Filters, Search Layouts, List View Button Layout, Restriction Rules, and Scoping Rules. The main area is titled 'Item' and has a toolbar with buttons for Save, Quick Save, Preview As..., Cancel, Undo, Redo, and Layout Properties. Below the toolbar is a 'Fields' list with a search bar and a table of fields. The 'Information' section on the right shows a preview of the layout with fields like Item Id, Customer Name, Prices, Weight, and Amount. The 'Information' section is highlighted with a red box.
